1. Received a call from Congressman Albert P. Morano (R., Conn.), who asked several questions about our appearance before the Inter-American Affairs Subcommittee of the House Committee on Foreign Affairs, such as who would do the briefing and what date had been set for the hearing. The Congressman was advised that Mr. Dulles had planned to appear before the Subcommittee and that a firm date had not been established by the Subcommittee staff. Mr. Morano asked to have his call transferred to the Director's office and said that he would check back with us if necessary.

We were subsequently advised that Congressman Morano did talk with the Director and raised a number of questions
